

## Amerinet Adds Novarad as Approved Imaging Product Supplier

American Fork, Utah, January 3, 2012 – Novarad was named an approved supplier for Amerinet, the healthcare solutions organization whose members include integrated delivery networks (IDNs), hospitals, clinics, long-term care facilities, physicians, ambulatory surgery centers, emergency services and others.

Under the terms of the agreement, Amerinet's network of more than 56,000 members will have access to Novarad's full suite of diagnostic products and services including its most popular offerings:

- **NovaPACS** – a complete web-based PACS with voice annotation set sync, MIP/MPR, advanced hanging protocols, point ROI, measuring tools, and customizable menus.
- **NovaRIS** – developed on the same platform as NovaPACS, generates reports, measures profitability and facilitates paperless management of patient records.
- **NovaDose** – An integrated solution of DoseMonitor radiation dose monitoring software, from PHS Technologies Group, integrated with NovaPACS. Novarad is the first company to integrate with DoseMonitor and also includes the product with the purchase of PACS.
- **NovaMG** – FDA 510(k) cleared and IHE compliant, the digital breast imaging viewer supports multi-modality viewing and iCad and R2 structured reports.
- **NovaOrtho** – Orthopedic templates and pre-operative planning tools.
- **NovaCardio** – Integrated Cardiology PACS/CVIS information management system.

"Amerinet has an established reputation for providing its members with unprecedented access to the best, most-in-demand medical solutions and we are proud to be named an approved supplier of imaging products," said Bob Ahlman, executive vice president of corporate accounts at Novarad. "We look forward to serving the Amerinet members with the products and services to help them improve performance, service and their bottom lines."

### About Novarad

Headquartered in American Fork, Utah, Novarad Corp. was founded in 1990 by a radiologist focused on providing superior methodology for remote viewing. Novarad has led the industry in the use of off-site archiving systems, IHE based RIS and off-the-shelf hardware applications. Currently serving more than 800 healthcare facilities around the globe, Novarad continues to be a leader in providing innovative, cost-effective imaging solutions.
